From Donna Frazier 7/27/2026

Good afternoon. I know you're closed in the afternoon and I'm sorry for bothering you if you do see this now but I was wondering if you could tell me who I need to contact to try and get signage for the sharp curve on Dunbar Road where an officer had an accident around midnight last night. It's always been a dangerous curve for anybody that doesn't know the road. Even my granddaughter was on her way home with a teacher from an FFA event and the teacher was driving and did not know the road and drove off the road but luckily not enough to have an accident and nobody was coming from the other direction. It definitely needs a sign at both ends notifying people it's a sharp turn I just don't know how to go about getting it.

Hopefully before someone gets killed because last year I stopped to help a motorcycle rider who went off the road at the same place and over the bank

Mike,

I think she means the corner near North Road (I thought there was always a big yellow arrow) but what do I need to do for this or she need to do for this?

Do you have an address near the curve, and I can take care of it.

It looks like 64 Dunbar is right on the curve I attached a photo.
